ERRATUM.

In the summary of the discussion on the paper by CHRISTOPHERS entitled " Malaria in War," this *Bulletin*, 1940, Vol. 37, p. 174, it is reported that WHITTINGHAM (p. 175) advised the use of methylated spirit in preparing Leishman's stain. This was an error in the original account of the discussion. For " methylated spirit " read " methyl alcohol."
